2023

- Malayalam (Native)
- English
- Hindi

PROJECTS

- **College Automation**

The College Management System project is a web-based software system that is designed to help colleges and universities manage their day-to-day operations more efficiently and effectively. The system is designed to automate many of the manual processes involved in managing a college or university, including student enrollment, faculty management, course scheduling, and administrative tasks.

Front-End : Android , HTML , CSS , JavaScript

Back-End : Python , MySQL
